**GARDENER AND GARDEN DESIGNER
CREATOR OF WWW.CREERUNJARDINENVILLE.COM
AUTHOR OF "ALMANIAK JARDINAGE"**

Early Career

I started my career as physicist in the field of Scientific Aerospace research. I got a *PhD at French Scientific Center and University*. I worked for more than 15 years as a Researcher and Project Manager for the *CNES (French National Space Agency)* and *Air Liquide*, a group leader in Gases.

Career change

Besides my job, I became volunteer at le Potager du Roi. It is the former *royal vegetable garden of Versailles Palace* built during the reign of King Louis XIV. From that moment, I knew that I wanted to work in the field of garden design. In order to keep contact with the field and the soil, I not only studied gardens design but also how to build and maintain them by myself. I worked as landscape worker at *Horticulture & Jardins*, a famous garden design Company and I became supervisor one year after. The owner is the famous French Landscaper *Pierre-Alexandre Risser*. I design and maintain many Urban gardens and terraces in Paris. I had the responsibility of more than 200 customers (business, hotels, and individuals).

Nomadic gardens in Asia

In 2019, I moved to India with my family. I designed gardens using tropical plants for private customers. I also collaborated with *Say Trees*, a *NGO* that uses a Japanese method to plant forests all over India. Then I moved to Shanghai in September 2021. Through these experiences, I gained knowledge of plants and gardens design across various climates. Many indoor plants are from tropical area. I also founded the website www.creer-un-jardin-en-ville.com to teach how to build and maintain sustainable gardens in urban environments.

COMPOSEZ UN BEAU JARDIN D'AUTOMNE POUR JARDIN DE VILLE, TERRASSE OU BALCON

'automne offre un spectacle naturel époustoufflant, avec ses couleurs riches et chaudes, ses feuillages flamboyants et ses floraisons éclatantes. Pour les amateurs de jardins urbain, il existe de nombreuses façons de composer un jardin d'automne, que ce soit sur un balcon, une terrasse ou un petit jardin de ville. Dans cet
